TEACHERS' INSTITUTE.

Interesting Session of Lawrence County Institute Now in Progress.

The Lawrence County Teachers' Institute convened last Monday at the court house, with Supt. Jay O. Daniel presiding. Miss Elizabeth Lester was elected secretary. After singing and devotional exercises the enrollment was made. 115 teachers are attendance. Prof. T. J. Coates then took charge of the institute in his own interesting way. He has directed the work in a very skillful manner and delivered some able addresses. The teachers have taken part in discussions of many branches, and it may be truthfully said that a more profitable institute has never been held in Lawrence county. Prof. Coates has no superior as instructor, and our teachers have been so awakened by the progressive methods of Supt. O. Daniel that the institute is a life affair.

Rev. C. H. Plummer contributed an original song on the public schools of Kentucky, which has made a hit with the body.

Mrs. Freeman, of Ashland, was present Tuesday and delivered an address on "Equal Rights." Also, she sang a solo.

On Wednesday it was announced that the County Fair would give prizes of \$5, \$3, and \$2 for the best essays on agriculture applicable to Lawrence and Wayne counties. Essays to be presented to committee during the fair.

Jay H. Northup, W. T. Kane and C. C. Flannery proposed to keep up free of charge one-fourth mile of road each for five years if 300 other citizens would do likewise.

A full report of the proceedings and names of those enrolled will be published next week.

VALUATION SURVEY.

The maneuvers of a surveying corps along the Big Sandy division of the C. and O. have given rise to a report that another road, presumably the B. and O. was running a preliminary or some other line to parallel the Chesapeake and Ohio. The NEWS is able to tell what the maneuvers mean. Some time ago the Interstate Commerce Commission made a call upon all the lines in the country for a report on the physical condition and the value of their respective lines. The report was to be based on the result of actual, thorough and comprehensive surveys of the roads, going into the details of roadbed and track, and, in fact of everything going into the construction of a railroad. A survey of this character is now being made for the C. and O. and it is thought that at least three years will be required for its completion.

The general survey of the road is under the direction of Mr. Gray, of Richmond, while Mr. E. C. Clark, of this city, is in charge of the work on this division. The corps consists of about fifteen men, and at present Louisa is headquarters. The corps is a camp on Thomas. The camp is in the lower end of Louisa, and occupies six tents, used for cooking, eating and sleeping. The corps works in and near Louisa every morning until the arrival of No. 37, when it goes to Buchanan and other points below Louisa.

The camp will remain at its present location probably two weeks longer, and the intelligent, gentlemanly young knights of the transit and level are delighted with at least their social environment—and the environment return the compliment and hopes that "Camp Clark" may last through the season.

THE "NEW" PREACHERS.

The removal of Rev. J. W. Crites from Louisa came as a surprise to the people of Louisa, but he and his friends have the satisfaction of knowing that the change carries promotion with it. The Huntington appointment ranks as a better one than Louisa.

The return of Rev. C. B. Plummer to the local M. E. Church was expected, and his friends are pleased that there was no change.

Rev. B. M. Keith, the new pastor of the M. E. Church South, comes highly recommended, both as a preacher of ability and as an earnest and successful pastor. He has been presiding elder of the Huntington district for two years. He was married last June.

WHO KNEW THEM?

Isaac A. Gray against Susan A. Gray, is the style of a divorce suit filed in Common Pleas Court at fronton. The plaintiff avers in his petition that he was married to defendant in 1863 at Louisa, Ky., and they have no children living. He alleges that the defendant has repeatedly quarreled with, mistreated and abused him and that on numerous occasions she has had him arrested on charges that were false and later found to be false. Wherefore he asks for divorce.

GOVERNOR MCCREARY

And Congressman Langley Have Accepted Invitations to Visit Louisa.

The NEWS is informed that Governor James B. McCreary and Congressman John W. Langley have accepted invitations to speak on educational subjects at a rally to be held at Louisa the second week in October. The affair will be conducted by the Kentucky Normal College. More definite announcement will be made later as to the day and the details of the program.

It will be a genuine pleasure to the people to have these distinguished guests in our town, and they will be given a hearty welcome. It is a considerable sacrifice for them to give up their time and make the long trip to Louisa, but this fact will make their visit all the more appreciated.

LIFE SENTENCE

Given Charles Reeves in Boyd County for Killing Keith Queen.

Catlettsburg, Sept. 9.—The case of Charles Reeves, charged with the willful murder of Keith Queen, was called for trial in the circuit court. After a few hours' preparation, attorneys for the Commonwealth and attorneys representing the defendant agreed that the defendant might enter a plea of guilty of murder in the first degree. The jury retired and after only a few minutes deliberation, returned a verdict of guilty and fixed his punishment at confinement in the penitentiary during the time of his natural life. The convicted man seems to be well satisfied with the result of the negotiations between his attorneys and with those of prosecution. It developed through some of the proof taken that the two men had never previously met, but were in attendance at a night meeting at Rush and young Queen, who was slightly intoxicated, brushed Reeves and stepped on his foot, nudged him to keep his feet out of the way. When young Queen, who was only 17 years old, went outside he was mistaken by Reeves, who was duly sober, but who had become crazed with anger, and young Queen was beaten in the head with a rock and then stabbed.

REV. C. M. SUMMERS.

The NEWS regrets to announce that the Rev. C. M. Summers, who had so long and so acceptably performed the duties connected with the pastorate of the Louisa Christian church, has resigned the position. There has appeared as a result of the great development now being prosecuted in Eastern Kentucky a field which is now for the work of a Christian evangelist. The NEWS alludes to the fields in various parts of the county of Pike, particularly to that portion which lays along the Tug river. It is into this promising region that Mr. Summers will go at the call of the Y. M. C. A. to labor for the uplift of mankind. No hotter selection could have been made. Mr. Summers is a high type of Christian gentleman, earnest and sincere in his labors. He will be greatly missed here by men and women of all churches.

Government reports show the largest wheat crop ever harvested in this country, but the corn crop has been cut very short since August first by the drought.

Dr. Morrill says, "the silk skirt shows a cracked brain and an empty heart." The feminines of this section are not constructed after any such fashion as this.

The Democratic State committee instructed Chairman Vansant to appoint a campaign committee of five, including himself. He appointed James Gayle, of Owenton; W. B. White, of Mt. Sterling; J. W. Boston, of Calhoun; and J. K. Wells, of Paintsville. Headquarters will be in Ashland and John W. Woods will be secretary.

The United States Senate passed the Democratic tariff bill last Tuesday. One Republican and one Progressive voted for the bill and the two Louisiana Senators voted against it. The bill is now in the hands of the conference committee, where it is expected to remain until about the 23rd. It should then be passed promptly by both branches of Congress.

Henry M. Cox, of West Liberty, the State employment agent under the State Prison Commission, is making a record for returning to the two State Prisons, convicts who have been released and violated the terms of their parole. Last week Agent Cox returned to the Frankfort reformatory four "bad actors," who will be required to serve out the terms for which they were sentenced.

CADMUS.

Aunt Mintie Scott's funeral will be presided the 3rd Sunday in September at the home grave yard on Cattsfork by Rev. R. H. Cassidy and James Ellis. Also church at same place the Saturday night before the third Sunday.

There was quite an accident occurred on Cattsfork Saturday week near Adam Harman's when a crew of men from Huntington, W. Va., had been at Paintsville and left there Saturday morning in an automobile and while going at full speed the machine plowed over an

embankment 25 ft. high changing ends landing on the bank of the 440 yards from the county road. All of them and two of the horses were killed. They sent at once a message to Huntington and in 2 1-2 hours there were three automobiles with the friends of the dead men at the place of the accident. A distance of 37 miles to those men being drunk at one of the accidents we will say the rumor is untrue, as the car was at the place of the accident a few moments after the accident and the men were sober nice gentlemen.

John F. Kelley, of Ky., was calling at A. Harman Wednesday of last week on off business.

Here It Is Again!

Jake expected to leave Louisa but thousands of his good friends and patrons asked him not to leave, and we do not blame the people. In place of the tariff going down it would go up with some of my competitors. Therefore I have decided to remain at Louisa and have formed a partnership and the firm will be known as Isralsky & Kohn and we are now buying merchandise for cash that will enable us to undersell any of our competitors at least 25 to 35 per cent.

Goods are arriving daily and at prices lower than any merchant can buy them whole. Do not pay any attention to knockers. I have been knocked every way in the last six months, but the more they knock the cheaper we sell. It hurts some of them, but we can not help it. We are here to sell the goods and protect the people from war time prices. So come to the same Jake and you will find more goods than ever at a price lower than ever.

TO GIVE YOU AN IDEA WE QUOTE A FEW PRICES

MENS SUITS AT . . . \$3.95 to \$15.00
Are a bargain at \$7.50 to \$22

LADIES SUITS AT . . . \$4.98 to \$12.50
Positively worth \$10 to \$22

AMERICAN GIRL SHOES AT .50 to \$5.00
Most Beautiful Line Ever in Louisa

In fact we have everything in ready-to-wear goods at prices that will make competition wonder and worry, but we do not care. We will cut prices right and left, going and coming. You will not be disappointed if you visit our store. You will find the prices always right.

Jake can not stand to look at good things. He does not keep them like some merchants do. He is anxious to see them go and get in new goods often. Therefore, if you are looking for new and up-to-date merchandise come to our store. We are sure we can please you.

In our grandparents' time, picture taking meant long sitting in uncomfortable, strained attitudes—with success always more or less in doubt.

There was excuse in the old days for not having pictures taken at frequent intervals.

But to-day, clever photographers, in comfortable studios, with fast plates and fast lenses at their command, make the experience a pleasure.

And you owe this satisfaction to yourself and to your friends.

There's a photographer in your town. His name is LUTHER.

A FAREWELL PARTY.

A farewell party was given by Inspector Joffe of the local engineers office on Wednesday evening, Sept. 3rd, in honor of Mr. Charles S. Hincke, the clerk of the engineers office, who is going to leave this town in the near future. A large number of the young ladies and gentlemen of this city were invited and an excellent evening was spent. Mr. Hincke's ability on the piano, as usual, was very much appreciated, especially when accompanied by such an attractive player as Mrs. Burns. One of the main features of the evening was a speech delivered by Mr. Joffe, although short, it was impressive when he expressed the appreciation of Mr. Hincke's friendship and also spoke of Mr. Hincke's splendid ability in making friends, not forgetting to mention his devotion for ice cream during the speech.

After the guests had enjoyed the splendid association of each other and the other good things abundantly provided for them, they joyfully departed.

This pleasant evening was spent at the home of Mr. and Mrs. Chilt Osborn, Lock-uv. Mr. Joffe takes this opportunity to thank Mrs. Osborn for her hospitality in opening her home to his friends, and for the splendid taste in arranging the evening programme. The guests felt the delightful odor of the various flowers surrounding Mrs. Osborn's house. A GUEST.

ACKNOWLEDGE IT.

Louisa Has to Bow to the Inevitable—Scores of Citizens Prove It.

After reading the public statement of this representative citizen of Louisa given below, you must come to this conclusion: A remedy which proved so beneficial years ago with the kidneys, can naturally be expected to perform the same work in similar cases. Read this:

J. B. Peters, Lock Ave., Louisa, Ky., says: "I was in a bad shape with kidney trouble. When sitting down for a few moments and attempting to get up, my back felt as if a heavy weight was tied to it. Sharp pains darted through my kidneys. After stooping, I was hard to straighten. Rheumatism seemed to shoot all through my body, particularly in my hips and joints. I was lugged all run down when I began taking Doan's Kidney Pills, procured the Louisa Drug Store Co. They made me feel like a different person, correcting all the troubles. I have no hesitation in confirming my former public endorsement of Doan's Kidney Pills."

SEASE IS PREVENTABLE

OF EVERY HUNDRED DEATHS IN KENTUCKY THIRTY-NINE ARE PREVENTABLE.

Diseases in Kentucky Caused by Consumption, Pneumonia, Typhoid fever, Diphtheria, Measles, Smallpox or Gonorrhea.

HOME

London, Ky.—(Special.)—Out of a hundred deaths in the state of Kentucky thirty-nine are preventable. The Kentucky Tuberculosis Commission. And what is a preventable disease? It is one which is directly or indirectly spread from one person suffering with it to others. We know most of these diseases in Kentucky are, viz., consumption, pneumonia, typhoid fever, scarlet fever, diphtheria, malaria, whooping-cough, measles, smallpox, cerebro-spinal meningitis, syphilis, and gonorrhea. Each of these diseases is caused by the growth in the body of a tiny organism, commonly called a germ. These germs can not be seen by the unaided eye, but under the microscope the shapes, characteristics and habits of most of them have been studied, so that they are now as well known to physicians as are those of human beings or domestic animals. The eggs of hookworms are also transmitted from person to person, but in this case the full-grown organism can plainly be seen by the naked eye. Since we know how these diseases are transmitted, it is perfectly possible, when people ask the doctors, to prevent their spread.

FRESH AIR!

It's a lucky thing that God made so much fresh air; it does more for us than we ever imagine. Few things have such a destructive effect on most disease germs, after they leave the body, as a slow, steady draft of fresh air. For instance, the germs of consumption will be killed by it in less than twenty-four hours. Considering the number of people moving about and spreading the germs of consumption, it is lucky for us all that the fresh air keeps so steadily and effectively at work. Fresh air is also, by long odds, the most important factor in the cure of consumption. The daily breathing of fresh air twenty-four hours a day, regardless of the weather, will do more to produce a cure than any other single thing. The supply of fresh air, purging the body of impurities, keeps the machinery of the body literally in "good trim," and, at the same time, it surely kills the germs as

HERITED!

Hereditary consumption! This is a great many people's case every case of the disease. Parents did not have it, some maintained that the disease was transmitted by inheritance from a distant ancestor. This is a mistake. The new-born baby of a diseased parent is not affected with the disease. However, when a child is born with consumption in the family is a dangerous and carelessly handled matter. If a child is infected at a little child to be infected at any time after birth. That, however, is not inheritance; a healthy adopted baby would suffer the same fate. It does not matter even if all of your relatives died of consumption, you need not necessarily travel the same dreary road. If you will live as much as possible in the open air, eat plenty of simple, well cooked foods, and no other, exercise, bathe and sleep regularly, and consult your physician as soon as you seem to be breaking down, there is no reason why you should die of consumption.

FOOD!

The three things necessary to cure consumption, beyond the advice and supervision of the physician or nurse, are fresh air, rest and food. A patient must have fresh air twenty-four hours a day, and rest or exercise according to the orders of the doctor. The most important items in the diet are eggs and milk, because they contain a large proportion of easily digested nutriment. A few years ago, the doctors reasoned that if a little of this highly nutritious diet in small bulk was good, a lot would be better; and so, in many cases, the patients were stuffed, until their stomachs did not work properly. Now, the question of diet is better understood; only so much of milk and eggs are given as the patient can easily digest. Of course, other foods are necessary, and are to be used in strict accordance with the doctor's orders. It is his business to know what things the patient can digest. A Pennsylvania consumptive, who tried to live largely on a diet of boiled ham and cabbage, experienced the natural result of a steady decline. Remember, then, if you are a consumptive, to follow the doctor's orders strictly in regard to the diet; and if he does not prescribe a considerable use of milk and eggs, go to another doctor.

EXERCISE!

A person leading a quiet, sedentary life is healthy only by accident, unless he makes up for by a little vigorous, open air exercise. Clean a locomotive firebox with coal, without receiving the cinders, and the engine will become so clogged as not to work properly. The body is exactly like a locomotive; if it is not exercised, the waste products accumulate and the result is disease. However, judicious exercise shakes up the organs of the body and increases their activity; it keeps the body in condition to resist the external emergency which may come to any of us; and, if taken heartily, diverts the mind from its ordinary cares and lets a man return with new vigor and refreshed spirits to his tasks.

Ninety per cent of the women who bother the doctors with all sorts of more or less vague complaints, need nothing but a loose dress, a hoe and a garden.

Kentucky Tuberculosis Commission.

SUNSHINE!

The Italians have a saying, "Where the sunlight is shut out, the doctor is let in." Fire, steam and a few powerful chemicals are the only things that will kill disease germs as quickly as sunlight. The germ in the spit of a consumptive, exposed to the glare of the July sun for an hour or two, are dead—er, harmless. Nor is the sunshine any more friendly to the other tiny enemies of mankind. Consequently, leave your windows and shutters open for the fresh air and sunshine several hours every day. If you are afraid it is going to fade the carpet, take up the carpet. Bare floors are cleaner and consequently more healthful in any way. Instead of carpets use rugs and frequently expose them to the fresh air and sunshine. Give the fresh air and sunshine as much access to your whole body as possible. Exercise out of doors daily, with garments no heavier than necessary. The fresh air and sunshine, as well as the exercise, will stimulate the action of the skin in throwing off the waste products of the body.

PLACARDED!

When the physician says "Scarlet Fever!" or "Diphtheria!" and a colored card is put on your front door, and you are not allowed to go out, and only the doctor can go back and forth, don't think that all this disturbance is useless, and intended simply to fill the pocketbooks of the doctors. These germ diseases are spread in ways so infinitely delicate that it is hard for us to understand them. More often than not too little rather than too much care is exercised. If the bowel discharges of a typhoid patient are not thoroughly disinfected by formaldehyde, quicklime, or other powerful chemicals before being thrown out, it is perfectly possible for the germs to be carried in water under ground, or by flies through the air, for a long distance, to infect other people. The germs of scarlet fever may live in the clothes of the victims and months later infect the person who chances to handle them. When the doctors' precautions bother you, remember that the same precautions are necessary for the safety of some one else is responsible for the disease in your family, and co-operate with your doctor!

THE LAST OF THE FAMILY.

Out of thirty-two members of three generations of this rural Kentucky family, this one survives. At least sixteen died of consumption, all in the same house. There was no money to give them adequate care. A county tuberculosis hospital, which could have cared for the first cases and prevented the infection of the others, might have saved several lives in this one family.

KENTUCKY NEIGHBORS.

Mt. Sterling, Ky., Sept. 5.—Samuel Tabor, son-in-law of Samuel Robinson, narrowly escaped death at the farm near this city by a vicious bull. The bull attacked the man, who was on horseback, goring the horse so badly that it will die, and throwing Tabor to the ground.

In falling, Tabor had the horse between himself and the bull and beat the enraged animal to a fence and escaped.

Elhan Blankenship, who about 4 years ago forfeited his bond and has since been a fugitive from justice, was arrested Saturday at Middletown, Ohio, and Sunday he was placed in the Campton jail. As Circuit court is in session he will be tried at once, the case being docketed for Friday. Whether he will be tried on the original charge of seduction or just for the forfeiture of the bond, is unknown. Since he left the country Newton Chambers, his principal bondsman and the one who had it all to pay, had a part of his estate sold to liquidate the bond.—Hazel Green Herald.

Whitesburg.—The Letcher county grand jury closed its ten-day session and reported 149 indictments. It is reported that thirteen indicted violations of the election laws, several of which were against election officers for permitting, as charged, "illegal votes" in their respective precincts.

Shade and Zek Sexton, brothers, were indicted, charged with the murder of Christopher Meade, aged 16 years, of upper Rockhouse creek, two years ago. It is charged that the two brothers were in a scuffle over an old shotgun and it was discharged, killing the boy.

Mr. Henry Hall found two revolutionary flint guns on the top of a mountain at the head of Island creek in Pike-co., Ky., the other day. The wood had rotted off the guns and they showed marks of having been there for many years. One of the bayonets on the guns had grown into a tree and Mr. Hall had to cut it out with an axe. They were marked on the barrels "Virginia Regiment, Spottsylvania." No doubt these guns were left there during the revolutionary war.

It is a mystery how these guns were in this retreat of our mountain country, but they were surely historic relics and the signs of age displayed in their make-up was a curious and interesting sight to behold. Even the old flints of the revolutionary days were still in the old historic relics of the past.

Last Sunday, August 31, will be inscribed upon Magoffin county's record as one of the bloodiest days of her history. That was the day when three precious lives were snuffed out by powder and lead and sent whirling to an unknown world and two other men's lives put in danger and may follow their fellow-combatants to that region which has been explored by only a few voyagers to uncertain things.

Sunday afternoon the renewal of trouble between Semore Howard and Leander Cornett at the church house on Howard branch, in the upper part of the county, resulted as follows, according to the best information The Mountaineer can pluck from somewhat varied and conflicting reports:

Leander Cornett, accompanied by his father, Russell Cornett, of eight of the Howards, shouted some insulting name at Semore Howard and at the same drew his revolver and fired, killing him instantly. His son, Nero Howard, snatched his revolver and fired upon Leander; then the Cornett father took his son's revolver and shot Nero, who, in turn, shot Russell Cornett. All the participants are dead except Russell and Leander Cornett, and the latest advice says there is little or no hope for Leander, while his father is expected to live. Further details are unobtainable.—Salersville Mountaineer.

Paris, Ky., Sept. 3.—"Public whippings instead of jail sentences will be my policy in the future when dealing with incorrigible boys brought into court," said Police Judge E. B. January to-day when he ordered Dennis Leer, a young negro boy, flogged with a cowhide. Leer, who is the son of Ben Leer, a highly respected negro of Paris, had for several months been the source of considerable complaint from white boys who charged that he had attacked them with missiles. When arraigned the boy pleaded guilty to the charge and Judge January ordered the boy's father to ply the lash, which he did with

telling effect upon the back of the boy, which had been bared for the occasion. When twenty lashes had been administered the boy almost fainted from pain and fright, and his body bore the unmistakable evidence of the severe thrashing. According to Judge January the reform school and jail are no place for boys who are inclined to stray from the right path, and to save expense to the city and State will have all youths brought into his court upon minor charges either whipped publicly by their parents or an officer of the court.

WEST VIRGINIA NEIGHBORS.

Elliot Varney, aged 23 years, died on Saturday night of last week at the home of his foster mother, Mrs. Sarah Hall, of Mable creek, from burns sustained the preceding Thursday in the Red Jacket mines.

Washington, Sept. 4.—More lawlessness and disorder exists along Paint creek, West Virginia, than at any other period of its history, according to today's testimony of Walter S. Woods, general manager of the Standard Split Coal Co., on that creek before the Senate investigating committee. The lawlessness he said, consisted of general disorder among the miners. The "more lawless ones" were stirring up trouble with those who remained at work, he declared.

Washington, Sept. 4.—Steps taken by West Virginia coal mine operators in the Paint creek and Cabin creek fields to better conditions surrounding their employees were related in detail to-day to the Senate Special Committee investigating the prolonged strike which ended about a month ago.

J. W. Heron, chairman of the car allotment commission of the Chesapeake & Ohio railroad, whose duties have led him to visit all mines along his railroad, testified that seven years ago conditions in the mines were open to criticism, but to-day everything possible had been done to protect the lives of miners and improve their surroundings.

Attorneys for the United Mine Workers sought to show that the mining laws of the State had not been carried out.

"I have never found any violation of the law in the least degree," said Heron, "unless it was in some far corner of the mine, where it had been impossible at that time to connect the ventilation."

Heron displayed a familiarity with coal mining, which led members of the committee to ask for his opinion on many features of the controversy between the owners and miners.

George K. Cabell, manager for several companies on Cabin creek, said he had bought a parcel of land on the creek to get rid of a saloon, the expenditure being \$10,000. He spoke of support given the churches and the Young Men's Christian Association, and of providing moving picture entertainments for the miners.

Attorney "Cap" Hatfield and his two daughters were in the city yesterday shopping. We called to see him at the Vaughan Hotel and found him in good health and excellent spirits. He was here shopping preparatory to settling his daughters to school. He conversed pleasantly of the past, present and future, and said that it was among his highest aims to educate his children and prepare them for a useful life. He is now residing near War Eagle just across the line in Virginia. He is now practicing law and has become interested in coal lands in Logan and Wyoming which he hopes some day will make him independent and comfortable. If he realizes as he anticipates he wishes to erect himself a pleasant home in Logan-co., near his father's old homestead and lead a quiet life with his family. He is now living on a farm surrounded by all those necessities which go to make the farmer independent. He is practicing law as a diversion and giving his attention to other details. The reporter had a long and pleasant conversation with him and he has bright hopes of a peaceful and contented future in the bosom of his family. He left on an early train this morning with his daughters for his home in Virginia, only a few miles from this city.—Williamson News.

EMPEROR WILLIAM'S APPEAL TO YOUNG MEN PREPARING FOR GERMAN NAVY

WILL give you in addition some advice upon a question which, in the interest of the nation, I have very much at heart—the question of alcohol and drinking. I know very well that pleasure in drinking is an old heritage of the Germans, but we must, by self discipline, free ourselves from that evil. In the course of my reign I have observed from experience that of the great number of crimes which have been apppealed to me for decision nine-tenths were due to alcohol.

Formerly it used to be considered a very smart thing for a youth to be able to "carry" a great quantity of alcohol, and I myself, as a young officer, had occasion to see such examples, but never imitated them.

Those ideas belong to the Thirty Years' war and no longer fit our times. Without speaking of the results of drink, which I do not need to describe, I wish to call your attention especially to one effect of intemperance which touches your future profession. As you will observe for yourself in the course of your service on shipboard, naval service demands a height of effort which it is hardly possible to surpass. It is necessary that you be able to endure this continual heavy strain without exhaustion in order to be fresh for emergencies.

The next war and the next naval battle will demand of you sound nerves. Nerve power will decide the victory. Now, the nerves are undermined and endangered from youth up by the use of alcohol. Victory will be with the nation that uses the smallest amount of alcohol. "There, gentlemen, must be your position. Then rough you the troops will be shown an example, and that goes farthest with the men.

There are in the navy in the course of formation or already formed good Temperance Societies and Blue Cross societies. Many officers and some hundreds of men belong to them. I hope that you will do everything which you can to persuade the men to join. If you train the troops to temperance, I shall be very much pleased. This is a matter of great future importance, for the men when they leave the service will carry the thought back to the whole country. If you will uphold these principles it will uplift the people morally.

FORMER GOVERNOR R. B. GLENN'S REASON FOR TOTAL ABSTINENCE

IN my younger days I used to use a little wine for my stomach's sake, but I can say to you now that not one drop shall ever pass my lips. I can give you the reason for the faith that is in me. I have seen strong and brave and good men laid low by this terrible demon. The names of seven of my young friends from the days of my youth come flitting before my memory—men some of them whose shoes I was unworthy to unlace.

Where are these men today? Three of them are in their graves, two are in insane asylums, two are a disgrace to their state—all laid low by this demon. I have seen young men go out as men of promise only to be ruined by this monster. I have seen young women go out with elasticity in their steps, roses upon their cheeks and sweet smiles upon their lips. Later I have seen these same women watching and listening and praying, yet dreading to hear the return of a husband's footsteps, not knowing whether he would come drunk or sober. I have seen the hat taken off the head, I have seen the clothes taken off the back, I have seen the feet of little boys and girls of my state—Governor Robert B. Glenn of North Carolina.

GOVERNOR GLENN.

GENERAL GRANT'S MESSAGE TO YOUNG MEN

WHEN I was a boy at school and at West Point I was a pet because of the greatness of my father. I was given every opportunity to drink and did drink—some. As I got older and mixed with men war-scarred veterans who fought with my father would come up and, for the sake of old times, ask me to celebrate with them the glory of past events, and I did—some.

Then when I was made minister to Austria the customs of the country and my official position almost compelled me to drink always. I tried to drink with extreme moderation, because I knew that alcohol is the worst poison a man could take into his system, but I found out it was an impossibility to drink moderately.

For that reason, because moderate drinking is a practical impossibility, I became an absolute teetotaler—a drink, if you please. I will not allow it even in my house. Remember, I do not say "moderate drinking is harmful." The fact is, maybe, it isn't so harmful, but this fact is indisputable—the hard drinker was once a moderate drinker, and the chances are all against a moderate drinker remaining such, and—well, I, for one, don't propose to take such chances.

I knew a man—maybe two or three—who died moderate drinkers. But the poor devils that I know, scores and scores of them, intelligent men, talented and all that, who have been ruined, disgraced by the greatest curse of Christendom, drink—ah, the picture is a sad one!

Give me the sober man, the absolute teetotaler, every time. He's dependable. If I had the greatest appointive powers in the country no man would get even the smallest appointment from me unless he showed proof of his absolute teetotalism. If I could by offering my body a sacrifice free this country from this felt cancer, the demon drink, I'd thank the Almighty for the privilege of doing it.—General Frederick D. Grant in 1906.

SENSIBLE WAY OF DRINKING IS ABSTINENCE

By DR. HARVEY W. WILEY.

THE only sensible way of drinking intoxicating liquors is by the rule of total abstinence. We should not forget that alcohol is a habit-forming drug, and the strongest men both in mentality and in will power may gradually become victims of a habit deadly to their career, humiliating to their friends and fatal to their usefulness. While I have not been an advocate of prohibition, I am an advocate of total abstinence. No one needs a law to permit him to refrain from drinking.

I think the saloons are the curse of this country, both in their effect on manhood and their dreadful effect on politics and legislation. It was the adulterated whisky interests which kept back the passage of the food and drug act for many years.

DR. HARVEY W. WILEY.

Runken At Culllettsburg.

The first page of the following letter was accidentally lost, but enough of it is remembered to know that it was written concerning a runaway of the family of Mr. J. S. Kirk, of Culllettsburg. If the NEWS is not mistaken Mr. Kirk is sixty-seven years old and his wife is sixty-four. All their eleven children are living and were present. What follows is the remaining part of the letter:

Both of these old people are in good health although they are unable to do much. It certainly did their hearts good to be able to gather their children to them once again, as some of them are scattered out far away from home. George W. Kirk has for the past six years been in the western states and in Canada, but the greater part of the time has been improving a homestead in Montana, S. D. Kirk has been for several years in the mountains of Pocahontas-co., W. Va., a very successful lumber man. D. C. Kirk has for a good many years been an electrical and steam engineer at Logan, W. Va., John Kirk is a very successful farmer at Priekhard, W. Va. Then the ones nearer home are Ed, Theo, Tilden, and Will Kirk, the three girls are Mrs. L. L. Richards, Mrs. R. L. Hazlett, all those with their children made some fifty who attended the reunion, and if there had been fifty more children and grand children they would have been as well come by their grandparents as the first fifty for J. S. Kirk has a country wide reputation for his hospitality.

At the first table were Mr. and Mrs. J. S. Kirk and their eleven children. Although every one was happy and glad to be together again, yet over all there pervaded a little feeling of sadness for their minds would wander back to other days and thoughts of ones now gone would come, and also thoughts that perhaps this would be the last time they would ever meet at their old home again.

After dinner was over they talked of old times for a while and then a number of them left for their homes, each one happy and thankful for the blessing of that day.

WENATCHEE AND MALAGA.

Being a full-blooded Kentuckian, I decided I would drop you a few lines and try and tell you something about our country. We have a fine country in any part of the far west. But I wish to say to prospective settlers of the east who are thinking of coming west: do not believe all the things you hear for the chances are not very good here unless a man has lots of money. They hold their land at from \$300 to \$3,000 per acre and none of it is worth \$300. They tell you they clear from three hundred to one thousand per acre. They do not do it, although a man with a good many crebards can do well here.

I expect some day to live again in old Kentucky and would advise all men who have their houses to stay by them. We grow in this Co. all kinds of fruit, such as apples, pears, plums, apricots, peaches, nectarines, plums—in fact all such fruit to perfection. Living expenses at this place are a little higher than east. Flour \$5.00 per barrel, corn 1 1/2 gal. corn meal \$2.00 per bushel, rice 8 c, coffee from 25c to 50c, bacon 20 to 35c per lb, syrup from 75 to 1.50 per gal, sugar \$5.00 per hundred.

If you care to you print the above and any one wishing to ask any question about this west may do so by sending stamp I will answer the best I can. J. G. DeBord.

HIGHWAY IMPROVEMENT

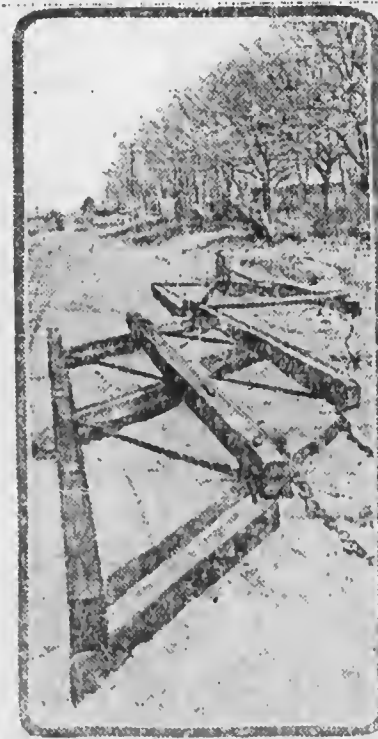

CONSTRUCTING A GOOD ROAD

Some People Think Gravel Is Everlasting, but This Is Mistake, Says Missouri Writer.

Gravel roads if well built will last six to nine years. It suffers most when not needed, namely, in very dry weather in summer or when frozen hard in open winter.

In the first place the road bed should be well made, but not too rounded, as this induces waste. Where seepy spots occur a natural drain should be built crosswise of the road, made of coarse rock to let the water out to the side of the road. Gravel should be at least eight inches deep in the center and wide enough for two teams to pass.

We once helped to build a two-mile gravel road in Missouri which was built by the tax rebate system 20 years ago. It worked hard on our district in this way, writes John Klingele of Lincoln county, Missouri, in the Iowa Homestead. Our district had a state road running north through the center. To the north of us two road districts met on our center line running north, and these two districts joined with us. We built to the planning of their near end of road, so it came to pass that they got the full benefit of their work while we only got part of it. Most of our people had no use for it as it was out of the way. To make matters worse, the road boys of the other two districts drew their full quota of road money at the expense of our district. This left our

One of the Double Drags Made by the "265-Day Road Club" of Carthage, Mo.

road boys the next year with 65 cents of road money and the pit tax to level the district. In order, and by the time the tax had been paid had been used our district was in very bad shape. Our money nearly all went to others districts and it is not just for a few to have a good road at the expense of the district.

"When a boy 21 to 37 years ago would build a good deal of gravel road, and a few weeks ago I was surprised to go back and find those roads changed. Where we helped build a good gravel road 22 years ago they have been hauling creek gravel every six to eight years and in this way they have a good road. They have the gravel near at hand, and with plenty of feeders a team averages one load an hour."

I think if the law required four-inch tires, and then the doubletire and neckyke were lengthened out to give the team more liberty, the roads would be much better. If we can't go with the four-inch we ought to stay off the road or use the spring wagon to get the necessities of life. There is no excuse generally for cutting up the roads except about the first of March. Our country roads will never be gravelled, for long before we get over them we will have to start over again. Some people think gravel is everlasting, but that is a sad mistake. Even now we don't think of saving our surface dirt and do not employ the motto, "a stitch in time save nine," our roads must wait till the working time comes and go all to pieces if the weather is bad in that time.

Selecting Ewes.

A Canadian authority said the best time to purchase the ewes for a farm flock is in August just after the lambs have been weaned. We can purchase them as cheaply then as at any time, and can make the best selection in choosing ewes that have raised lambs, as their milking qualities and strength can be ascertained. Besides, we will have them in good condition for the next crop of lambs.

Poultry Industry.

The import of the product of poultry culture into this country from foreign countries show that the field is still open to a large increase of the industry in the United States, and that the opportunity is waiting for those with sagacity and industry enough to take advantage of it.

PIKE COUNTY NEWS

PLUMA CAMPBELL MISSING FROM HOME?

An impenetrable mystery surrounds the disappearance of Miss Pluma Campbell, the pretty 17-year-old foster daughter of Dr. and Mrs. W. A. Campbell, of this city, and the efforts of the police and detective forces of the city of Cincinnati, where she was last seen have so far only met with baffling defeat.

Pluma left last Friday with several other friends, after telling her parents that she intended to spend the day at Coal Run. Her father made a professional call the same day at Coal Run and at the same house where the girl was supposed to be stopping. He learned that she had remained aboard the train, and afterwards was told that she had gone to Louisa to attend a party there, and dismissed the matter from his mind, thinking she would return on the following day. But Pluma failed to appear Saturday as expected, and Dr. Campbell then learned by means of long distance calls, much to his surprise, that she had not stopped at Louisa either. Filled with grave apprehensions, the doctor boarded the train at

Ington and several other towns in search for her, and during his absence two letters and a telegram

arrived at Pikeville from her. These were dated Cincinnati, and the telegram and one letter were addressed to her heartbroken parents announcing that she was happily married asking their forgiveness, and the other letter was addressed to Miss Anna Clark, a girl friend.

After a hopeless search her father returned Monday with no clue. According to Cincinnati papers, the young lady spent the day in the lobby of the Grand hotel at Cincinnati, and left at 9 o'clock by the Fourth-st entrance unattended. Mrs. J. R. Johnson, Jr., and Mrs. Lon Wellman arrived there Monday in search of her, but their search resulted in nothing further than enlisting the aid of the police and secret service departments of the city on the case and furnishing them with photos, proper description, etc.

If there was a man in the case, he had evidently deserted her. But beyond her own assertion of marriage, there is no evidence of a man's hand in the case.

POLICE JUDGE MARRS REFUSES NOMINATION.

Police Judge Jas. P. Marrs, who received the tender of his party's nomination for re-election to the office which he now holds, issued a public statement yesterday in which he declined to run again for public office. He is 69 years old, and has been a public official in different capacities for 25 years. His reason for refusing the republican nomination is that it has long been his desire to spend his declining years

present term of office expires he will retire to the farm.

Judge Marrs has made an honest, impartial and proficient officer of the law, and a firm supporter of justice, of which the city of Pikeville has reason to be proud. His entire official career has been a spotless one, and his retirement to private life will be crowned with the glory of achievements well and honorably performed.

The statement speaks no word of politics, but says he will hold all the people in grateful remembrance and does not hint at his choice for a successor.

SALVATION ARMY HOLDS MEETINGS.

Along with the term of circuit court and the Teachers' institute, which are in session here this week, Capt. Frazee of the Salvation Army of Ashland is holding a series of meetings in the court room to last ten days from the beginning.

Sunday night the great court auditorium was crowded to the limit of its capacity, the other churches of the city holding no services during conference, and Pikeville turned out en masse to hear not only a message of the gospel, but to learn of the great work which Capt. and Mrs. Frazee and their loyal assistants are doing in the cause of humanity.

This quiet little man, who attracts no attention and shuns personal favor is the same energetic spirit that put a earload of provisions on the ground just after the disastrous flood that swept down Middle creek in Floyd-co four years ago, taking before it the homes of many people, and even the soil from their farms, so as to completely pauperize a once great and

rich farming section. Before the arrival of Capt. Frazee and his carload of food, and clothing grim starvation stared these people in the face. His daily work now is no less crowded with noble deeds of self abnegation than upon that occasion, and hence those who know him are heart and soul in sympathy with his cause.

COSTLY FIRE AT SHELBIANA FRIDAY.

Fire consumed the handsome new home of Lewis Sowards at Shelbiana last Friday, and much damage was done to adjacent property. The furnishings and household goods were saved from the conflagration, but otherwise the damage was great. The flames threatened the warehouse of the Morell store, but by a hard fight it was saved, but two other buildings nearby were burned, and the U. S. Postal building was toppled over and rolled down a steep embankment to prevent a further spread of the fire. The damage will reach thousands of dollars.

HORSE, LIGHTNING STRUCK, DASHES TO DEATH.

A fine saddle horse belonging to Creel Tackett, a Floyd-co, farmer, was struck by lightning during a storm last night. The animal was not killed by the stroke, but broke loose from the hitching post, dashed down the alley between the stores of J. D. Caudill and the Cumberland Products Co., on Main-st., struck his head against a wall and was so badly bruised about the head by the impact that he died within a few minutes after the accident.

AGED CITIZEN DIES.

Uncle Lewis Deskins, aged 84, died at his home at Deskins, Ky., Tuesday after a brief illness from cystitis.

Mr. Deskins was one of the very old farmer citizens of Pike-co., and was well known throughout the county. The funeral and interment took place near the home yesterday. He leaves a family.

LOCAL AND PERSONAL.

Pikeville is now facing the necessity of imposing an additional tax to defray the expense of keeping clean the recently paved streets. It is very probable that a tax will be levied on bicycles, motorcycles and automobiles to raise funds for a part of the expense. A great bicycle fad prevails here this season, and a tax levied in that direction could not but prove very profitable.

The Rev. J. E. Thompson, of Jenkins was in town last Saturday. R. S. May, of Whitesburg, came over last week on business.

Durand Keel, who has been spending several days at French Lick, returned to Pikeville last Friday.

Mr. J. C. Polley and her son Elster left Monday morning for Berea College, where Elster will enter the business department. Mrs. Polley spent a few days in Ashland before returning home.

Monsieur and Madame P. C. Cornet of Mons, Belgium, announce that their new home which they are building in the city of Weeksville, on Beaver creek, will be finished in October. Monsieur and Madame have been stopping at the Pike hotel for several weeks, and it is their intention to spend several days in the new home on Beaver, where M. Cornet is engaged in operating a large coal tract, as soon as the house is finished. Later in October Mme. Cornet will leave for her yearly visit to France, where she will spend the winter months.

Jasper Sand has just returned from a visit of several days to friends at Williamson, W. Va.

A. J. Moore, of Harold, was in town last Saturday.

Little Lon Rogers returned last week from a visit of several weeks to the home of his grand parents near Cincinnati.

James Farmer, of Lookout, was here one day last week.

No more cases of typhoid have developed, and those who are now down with it are in a fairly hopeful state of convalescence.

Stephen Reynolds has put up a first class butcher shop in the yellow building above the Fuller hotel.

John Hall has opened a grocery store in West Pikeville.

Paris Charles, of Dickinson county, Va., and M. L. Senter, attorney and republican nominee for Police Judge of Elkhorn City, are here this week.

Walter Reynolds recently returned

ed from a professional visit to Iron-ton, Ohio.

Millard Burke, a merchant of Jenkins, was in Pikeville Monday.

Miss Stella Ferguson, of Louisa passed through Pikeville last Monday enroute to Elkhorn City, where she will be the guest of friends for a few days.

Mrs. Oille Auxler is building a residence in West Pikeville.

Henry J. Sinup, of Vancouver, B. C., is here as the guest of his brother O. A. Stump.

Mr. and Mrs. Chas. W. Bentley returned Monday from Williamson, W. Va., where they went to visit Mrs. Bentley's sick father.

Mrs. W. J. Bryan and daughter, the Misses Margaret and Gladys, who have been the guests of friends here for several days, returned to their home at Ashland Tuesday.

The Keys, J. B. McClay, of Ashland, J. A. Lewis pastor of the First M. E. Church, and I. N. Fannin, pastor of the M. E. Church, South, all returned from Conference Tuesday night.

MR. LEWIS A. RIFFLE tells his experience with coughs and colds that lead to nervousness and debility.

Colds are often aggravated during the Summer because inactive bowels and a stomach out of order are prime causes in keeping a cold from getting well.

Pe-ru-na has very beneficial laxative qualities that neutralize such conditions. Its tonic ingredients tone up the system, and thus invigorate the stomach's functions to normal activity.

Mr. Riffle's experience is especially interesting at this time of the year because it shows the close relationship there is between a nervous breakdown and a neglected cold.

Pe-ru-na should be kept in the home at all times, that a cold upon its first appearance may be treated promptly and successfully. This often saves money and time, and what is most important, a great deal of vitality.

Mr. Riffle, of 753 Cantonment Ave. Portland, Ore., writes: "I have found Pe-ru-na a most remarkable medicine for building up the system and for curing colds and coughs."

"I took it for four weeks a few months ago when I was all run down, nervous and debilitated, and it quickly restored my health."

"I always keep it on hand, as a few doses will cure a cold if taken in time. People who object to liquid medicines can now obtain Pe-ru-na Tablets."

The recent rains are appreciated in spite of the long continued drought, most crops in this community are fairly good. GOLDENROD.

The first shipments of coal out from the new operations of the Mineral Fuel Company at Fleming have just been made to the markets of the Northwest. Within thirty days everything will be in readiness to begin the shipping of coal on a large scale.

LEFFLER'S ROSE CREAM FOR THE FACE

ROSE CREAM INSTANTLY STOPS ITCHING ANYWHERE

Our "ROSE CREAM" has the true and fragrant odor of the white rose, this odor being a favorite among ladies of refinement. It nourishes the skin and prevents premature lines and wrinkles. It is made from a purely vegetable oil, compounded with the most health giving ingredients for the skin known. It is an infallible remedy for sunburn, pimples, blackheads, and cures the worst cases of eczema. ROSE CREAM is colorless, and it is very necessary that it be so, since it is a skin food. Therefore, it contains nothing that can prove harmful or an injury to the most delicate skin; it is intended to build up, soften and give that fine and healthy look to the skin of the face or of the body that is so pleasant to look upon in the faces of healthy girls and boys. Put up in two ounce and four ounce jars, and sent prepaid per parcel post upon receipt of 50 cents. H. COHEN, Roy, 95, Heller, Ky. (Adv.)
